Creation, Science, History and the implications thereof

A Biblical view of
the creation, the
world wide flood
and recent
events
attempting to
discredit both
truths.

Presented by: Ed Van Gennip ed@truescience.ca
Morningstar Christian Fellowship. Toronto. Spring 2013

Topics over the next few weeks

 Week 1 - tonight - introduction

 May 19

 Week 2 - Creation, History

 May 26

 Week 3 - Flood, Science

 June 2

 Week 4 - Science, Be ready to give an answer

 June 9

 Week 5 - Q/A, Revelations tie-in, Wrap-up

 June 23. June 19 = Fathers Day

Format

- 5 evenings; 1 - 1:20 hours per evening
 - 15 min - opening & answer to question
 - 45 min session
 - 15 min question/answer
 - 5 minute next question given and wrap-up
- Feel free to question the Biblical basis of the material presented:
 - Be like the Bereans (read Acts 17:11).
 - Nothing said should contradict a single Scripture.

Why teach about Creation/Evolution?

- 70% of Christian youth lose their faith in their teen years. Why?
- Schools teach evolution, even in non-science classes.
- Movies almost exclusively evolutionary.
- News of any science discovery tries to relate it to evolution in a supportive way.
- Many churches teach nothing on this topic.
- Parents do not know the answers to teach children.
- Youth want facts, evidence. 'Faith' not accepted today.
- Evolution and the Bible are 100% contradictory;
 - There is no compromise. It takes glory from God.
- Any surprise 70% lose their faith?

Science - Evolution and Creation

- Orville and Wilbur Wright.
- Experts said man cannot fly.
- Scientist's theories not matched to experimental reality.
- Orville Wright first to fly 852 feet in 59 seconds. Dec 17, 1903.

- Worked 25 years before they were successful.
 - Their picture is the most copied in history
- Dec 17, 1903. Orville - first man to fly. 852' in 59 secs.
- 60? Years later man walked on the moon!

- Today what is accepted as true is evolution. But it is not really true.
- Need to keep fighting, sharing what is the truth in the area of creation/evolution.
- This is my mission in life.
- These 5 nights are to provide you some evidence to share with others if/when the chance arrives.

- First, a question and answer

Gen, 4:17 “And Cain knew his wife; and she conceived, and bare
Enoch: and he builded a city ...”

Question 1: Where did Cain get a wife?

Before we dig in, each week I will leave you with a question which we will discuss at the opening next week.

Lets go through an example.

This is a very common question asked of people who believe in creation.

Adam and Eve are part of creation, so the question, where did their kids, like Cain, get a wife?

If your kids or grandkids asked this could you tell them the answer and give the logic why?

Cain: looking all over the earth!

Were there other people on the earth from which to select a mate?

Issues

- Understanding of issues are clouded by teaching and current beliefs.
- Don't see things clearly or unbiased without help from others and God.
- Christians are deceived by Satan. It's the lies, merged with partial truths, which seem right.

It is difficult to think straight when we have been taught so many partial truths.
We try in our minds to come up with answers based on what we have been taught and think.
We need to open our minds to what the Bible really says, which may not be what we think it says.

Who's on the earth ?

Lets look at the facts, without adding any of our own interpretations.
Who was on the earth at the time of Adam, Eve and Cain?
These are the possibilities.

Cain's wife : problem ?

- Cain was a son of Adam.
- Adam was first human, no other families exist.
- Cain took a wife.
- Where did this wife come from ?
- Are there any problems with his choice of a wife ?
- Why or why not are there problems ?

Facts from the Bible - first 3 points.
Do not read ahead in the bible. Assume we know nothing else.
This is all we know.

So he must have chose a wife from amongst his family members. Problems with this? No, as we will see.

Cain's wife - Bible says ?

- Read Genesis 1:26-31
 - Adam/Eve created good. Perfect. No sin.
- Read Genesis 4-5:5. Birth, marriage
 - Adam/Eve had Cain, Abel, other kids, Seth, other kids.
 - Can have a lot of kids on 930 years !
 - How about Seth, other kids. Who did they marry ?

Cain's wife - revealed!

Who was Cain's wife :
a sister. It's obvious!

Wrong ?

If so, why ?

Who says it's wrong ?

Wedding list : only family members : no one else exists

Could be a niece, a daughter of one of his brothers or sisters.

Why is it wrong to marry a sister or niece? Who says it is wrong?

Bible does not say so until the law is given, which is thousands of years later (about 2500 years later)

But family marriage causes genetic problems right? Lets look at that.

What are we made of ?

- Male + Female = new person
- Each provides chromosomes.
- Each chromosome has many genes
- Combination of genes determine us :
Hair/skin/eye colour, height, large/small bone, toe style, freckles, mouth shape, nose, chin, broad shoulders, ...
- Millions, billions of combinations. Each unique.
- Genesis 1:31. Everything was perfect

Could not have been genetic problems at creation as all was perfect.

But sin entered the world. Genetic flaws started.

Maybe this is what the Bible means when it says we all 'inherit' Adams sin nature. It is literally part of each of us, in our genes.

Let's look at how it works.

Gene pool example

ABC - dominant genes, abc - recessive genes

	A	B	C	a	b	c
A	AA	AB	Ac	Aa	Ab	Ac
B	Ba	BB	BC	Ba	Bb	Bc
C	Ca	CB	CC	Ca	Cb	Cc
a	aA	aB	aC	aa	ab	Ac
b	bA	bB	bC	ba	bb	bc
c	cA	cB	cC	ca	cb	cc

Good case

Dad : AAbbCC
 Mom : aaBBCC
 Children : AA, aa, Aa
 bb, BB, Bb
 CC

No possible cc, Cc

Bad case

Dad : AaBbCc
 Mom : AaBbCc
 Children : ?

Dad : aabbcc
 Mom : aabbcc
 Children : aabbcc

Nothing else possible

Green is a perfect set.

All possible gene combinations can come from this.

Good case - good, but no longer able to produce all possible combinations.

Evolution says this is good, no recessive genes. Think it is evolved.

But if the environment changes the recessive genes may be important, but the 'c' no longer exists so the organism cannot adapt. **Adaptation is not evolution.**

Bad case - all recessive, no dominant so never possible to have dominant genes again. Huge lost.

In the third case, what can children be? See next slide

Gene pool - Perfect beginning

ABC - dominant genes, abc - recessive genes

	A	B	C	a	b	c
A	AA	AB	Ac	Aa	Ab	Ac
B	Ba	BB	BC	Ba	Bb	Bc
C	Ca	CB	CC	Ca	Cb	Cc
a	aA	aB	aC	aa	ab	Ac
b	bA	bB	bC	ba	bb	bc
c	cA	cB	cC	ca	cb	cc

Good case

Dad : AAbbCC
 Mom : aaBBCC
 Children : AA, aa, Aa
 bb, BB, Bb
 CC

No possible cc, Cc

Perfect case

Adam → Dad : AaBbCc
 Eve → Mom : AaBbCc
 Children : anything

All possibilities

Bad case

Dad : aabbcc
 Mom : aabbcc
 Children : aabbcc

Nothing else possible

Adam and Eve perfect, can have perfect children, as can have perfect balance of genes.

Adam, Eve - perfect creation

Adam : AaBbCc	Eve : AaBbCc	Perfect
Cain : AAbbCc	Sister 1 : AaBbcc	Sin enters, imperfect
	Sister 2 : aaBbcc	

Children possibilities :
 AAbbCc aaBbcc
 AabbCc AaBbcc
 AaBbCc AABbCc
 ...

27 possibilities
 AA,Aa,aa x BB,Bb,bb
 x CC,Cc,cc = 3x3x3=27

Perfect child is possible, but 1/27 chance. Gene degradation is dominant

Notice - only 1 in 27 combinations is perfect. Once sin enters, gene degradation starts and 26 of 27 cases cause further degradation. We are degrading FAST!

Adam, Eve descendants

Each generation has increasing number of defective genes.

Cain's wife - Summary ?

- It's was **not** wrong to marry a close family member:
 - Leviticus 18:6 is first time God said not to marry close family.
 - This was ~2500 years after Cain's day.
 - Everyone descended from Adam/Eve so all are family.
 - Wrong for last 3500 years (since flood) as sin since Adam has corrupted gene pool.
 - Takes time for degeneration to build up, to combine and have a noticeable effect.

2500 years of gene's

Each generation has increasing number of defective genes.

Genesis 6 talks about the corruption of mankind.
Probably demons took on human form and had sex with women.
Produced 'great' people - titans and gods of Greek and Roman mythology (based on partial truth)
God greatly purified mankind by the flood, destroying all these descendants of demons.
But genetic defects did exist in Noah and his family, so that sin continued on to today.

Further example

Live expectancy - how old do people live ?

Adam : 930
Seth : 807
Enos : 815
Jared : 962
Lamech : 777
Methusela : 969
Noah : 960

Noah : 960
Shem : 600
Arphaxad : 953
Salah : 433
Eber : 473
Peleg : 239
Reu : 239
Serug : 230
Nahor : 148
Terah : 205
Abraham : 175

Today :
Men : 75
Women : 85

Pre-flood

Post-flood

Gene pool degeneration -> shorter lifespan ?

Look at the life span of people before the flood. Up to 969 years of age.
After the flood the world changed greatly and life span quickly reduced close to what it remains today.
Bible - says 3 score and 10 - 70 years. Pretty close, still, after 2500+ years since it was written.

Today - close relatives marry ?

- Joe is descendant of Adam -> many defective genes inherited from parents.
- Jane is his sister, same parents.
- Odds of same genetic defects is higher.
- Odds children get combined same defect is higher, as both parents have it.

Cain's wife lessons

- Our current world view clouds our view of the past
- Read, trust/believe the Bible first. Use it to guide whatever else we have learned and think.
- Based on number of genes we have there are 10^{2017} possible variations of people. Lots of choices for a spouse. More choices than the total of all atoms in the universe !

- We can learn a lot from 1 simple example.
- When we look close we see the Bible has a lot to say, directly and indirectly on this and related topics.

Other examples

how could all the animals fit on the ark ?
How different are the races of people around the world ?
How old is the earth ?

Implications

Marriage

● Genesis 2:23,24

● Jesus: Matt 19:3-6

● not close relatives

● gene problems

● lots of choices

Sex

● Learn from Gene pool example.

● Genesis 2:23,24

● 1 flesh : 'sex' passed on to partners

Kids taught safe sex in high school.

Science shows only safe sex is 'save' sex, ie. No sex before marriage.

Protects from pregnancy, if the condom does not break or defective, but does not protect from many diseases.

Tennis net and golf ball shows some sexual diseases pass right thru condoms.

Question 1 - Where did Cain get his wife?

This was an example of a thorough answer as well as implications of that answer on us today.

- End each week with homework. A question.
- Look in your Bible for clues.
- I don't want just an answer, you must include some Bible references. All answers must have a Bible basis.

After talking about the above:

Now, lets begin tonight session. The introduction to creation and evolution.

The Bible

Is it true?

Show title only. Ask audience do they believe the Bible? Is it God's word, his truth given to us
Is it all true or only part of it?
The Bible contains many things that seem untrue - miracles we call them.
Do you believe that miracles happened?

Matthew 17:24-27

v27: “... go to the sea and throw in a hook, and take the first fish that comes up; and when you open its mouth, you will find a shekel.”

Coin in fishes mouth: a tax was requested of Jesus.
Jesus said he did not need to pay tax. But he does to not cause problems.
He then tells Peter what do to.

2 Kings 6:1-7

v6b: “he cut off a stick and threw it in there, and made the iron float.”

Prophet Elisha. Others were going to build a home for them.
Going to cut down some trees. Axe fell in the Jordan river. Floating axe head

Exodus 14:13-31

v21b, 22: “the LORD swept the sea back by a strong east wind all night and turned the sea into dry land, so the waters were divided. The sons of Israel went through

the midst of the sea on the dry land, and the waters were like a wall to them on their right hand and on their left.”

Red Sea parting. Notice 'dry ground', notice 'water like a wall on left and right'. I once heard a pastor talking about the people walking through the mud!. Also that the sea dried up. Not what the Bible clearly says. Miracle!

The Bible - still true?

Show title only. State many more miracles. Jesus raised the dead, as did others like Elisha and Paul.

Still believe?

Show verse. Says God created the universe in 6 days. Not billions of years.

Still believe?

Many people do not, especially in Western world. Those more educated, taught sciences, taught evolution.

The Bible - still true?

Genesis 1-2. 1:31, 2:2 “³¹ God saw all that He had made, and behold, it was very good. And there was evening and there was morning, the sixth day. Thus the heavens and the earth were completed, and all their hosts. By the seventh day God completed His work which He had done...”

Show title only. State many more miracles. Jesus raised the dead, as did others like Elisha and Paul.

Still believe?

Show verse. Says God created the universe in 6 days. Not billions of years.

Still believe?

Many people do not, especially in Western world. Those more educated, taught sciences, taught evolution.

Points of Contention / Struggles

- Believing whole Bible.
- Look up John 5:46. What does it say?
- Many young loose faith due to science.
- Charles Templeton book - "Farewell to God".
- Why loose faith - cannot answer questions.
- 1 Peter 3:15 - "always be prepared to give an answer ...".
- These sessions are to prepare you, especially to family members, but also to anyone.

Opposing Statements

- 🌍 Athiests - Dawkins, others.
- 🌍 Day age - Hugh Ross.
- 🌍 'evolution proved' is news, etc.

- 🌍 Biggest issues - age of the earth, dinosaurs.
- 🌍 Will deal with these over the next few weeks.

Introduce Dawkins. 'The God Delusion' I reviewed it. Incredible number of flaws: partial evidence, I believe complete lies.

Hugh Ross - mixed creation and evolution. Many problems. Jonathan Sarfati book addresses these.

Evolution is not proved. Most scientists do not say this, the media does.

Take science discoveries and enlarges them and say things scientists did not say.

Show video from Mission to Mars - typical evolution story.

Mission To Mars Movie clip

3 quotes -

Millions of years of evolution.

Life just suddenly appeared.

No one has ever understood why or how it happened.

Notice - assume millions of years of evolution but 'life just suddenly appeared'. No one understands why or how.

Bible says when it happened - day 3.

Bible says how - God said

Bible says Why - created mankind to glorify him and enjoy Him forever. Westminster Catechism, article 1. Bible verses Psalm 86, 16

Answers exist for those willing to look.

3 Forms of Creation

God the Father:

Genesis 1:1 - “In the beginning God created the heavens and the earth.”

God the Son:

John 1:1-3 - “In the beginning was the Word, and the Word was with

God, and the Word was God. ² He was in the beginning with God. ³ All

things came into being through Him, and apart from Him nothing

came into being that has come into being.

God the Holy Spirit:

Romans 1:20 - “For since the creation of the world His invisible attributes, His eternal power and divine nature, have been

God in all 3 forms -Father, Son, Holy Spirit have a part in creation.

Father and Son in creation itself.

Holy Spirit convicts people of God's existence through what can be seen in nature.

No one has an excuse to not believe that some one or some force created everything.

It did not happen by chance, on it's own.

Is evolution taught in our culture?

Avatar, 2001/2010 a Space Odyssey, Star Wars, Alf, E.T., Close Encounters, Independence Day, Mission to Mars, Evolution, Contact, The Abyss, The Thing, Star Trek, V, Stargate, Mork and Mindy, Lost In Space, Dr. Who, Dune, Blade Runner, Buck Rogers, Hitchhikers Guide, Men In Black, Fifth Element, Transformers, Prometheus, The Day the Earth Stood Still, Outer Limits, Interstellar, Guardian of the Galaxy, Extant, Agents of Shield, Thor, ...

Overwhelming. I like science fiction. Seen all these except the last. Many more.

Many scientists in NASA, SETI, CERN.

'Skilled' people write biology books.

Scholarly magazines? Some are.

We expect the new to be trust worthy.

We may not believe all movies, but they do plant false ideas, many of them.

Mission to MARS extremely clear - shows an alien on Mars sending seeds of life to earth, falling in the oceans, and life evolving. Great animation!

Original Star Trek and ST Next Generation each have episodes clearly speaking to evolution.

This is all a form of advertising. Works with clothing, toys, so why not ideas!

Is evolution taught in our culture?

All levels of school; media; government;

Have you ever seen pictures like this?

Yes picture has no dinosaurs. This is what we see in books, even Christian ones. [CLICK](#)

Why no dinosaurs?

God said take 2 of every animal, 7 of the clean ones. Should be at least 2 dinosaurs.

Common miss understanding - dinosaurs were called dragons, possibly behemoth, in the Bible.

Lots of evidence they existed long after the flood.

See next slide.

Have you ever seen pictures like this?

YES

NO

Yes picture has no dinosaurs. This is what we see in books, even Christian ones. [CLICK](#)
Why no dinosaurs?
God said take 2 of every animal, 7 of the clean ones. Should be at least 2 dinosaurs.
Common miss understanding - dinosaurs were called dragons, possibly behemoth, in the Bible.
Lots of evidence they existed long after the flood.
See next slide.

Natural Bridges National Park, USA.

Pueblo Indians lived here from 900-1200 AD.

Carved a dinosaur in the rock just left and up from where I am standing.

How could they do this in 900 AD if they did not see dinosaurs which supposedly lives 170+ million years ago?

Answer - maybe dinosaurs lived in 900AD.

Cal Bombay - know him? From 100 Huntley street. He was speaker at men's conference in mid 90's.

Said he saw dinosaurs in Congo, Africa, in 1960 when he was a missionary there.

Cal Bombay, committed Christian. Saw dinosaurs 50 years ago!

Ever hear that in the media?

Creation or Evolution? What does Science say?

- Science is the interpretation of facts.
- Scientists have assumptions they add to the facts to make theories. Facts + assumptions = theories.
- Science can point to either creation or evolution.
- For example:
 - rock (fact) + dating technique (assumption) = the earth is very old (theory).
 - rock (fact) + different dating technique (assumption) = the earth is very young (theory).

Science claims are not FACTS, they are theories based in interpretations of facts.

Facts are physical evidence. Even facts may not always be clear due to different measurements, errors, contaminations, etc.

Faith: “Now faith is being **sure** of what we hope for and **certain** of what we do not see.” (Hebrews 11:1)

What is faith.

Sure of what we hope for. The Bible gives us lots to hope for - forgiveness of sins, eternal life. Instructions on how to live. Many things.

Click mouse

Certain of what we do not see. Do not see the wind, but see the effects. Certain the wind is causing the trees to bend, and cool us from the heat.

We do not see God but do see evidence all around us of God.

Do not see creation or evolution, but is there evidence that we can be certain of what we cannot see?

Yes, there is.

Click mouse

Faith: “Now faith is being **sure** of what we hope for and **certain** of what we do not see.” (Hebrews 11:1)

Acts 17:11: “Now the Bereans were of more noble character than the Thessalonians, for they received the message with great eagerness and examined the Scriptures every day to see if what Paul said was true.”

What is faith.

Sure of what we hope for. The Bible gives us lots to hope for - forgiveness of sins, eternal life. Instructions on how to live. Many things.

Click mouse

We do not see God but do see evidence all around us of God.

Do not see creation or evolution, but is there evidence that we can be certain of what we cannot see?

Yes, there is.

Click mouse

Creation or Evolution? What does Science say?

- Everywhere is evidence of creation.
- We see evidence of dinosaurs alive recently.
- Grand Canyon, Ayres Rock, coal deposits, sea shells on mountain tops - geological evidence of creation.
- Too few exploding stars, sun too small - space evidence of young universe.
- $E=MC^2$ - information needs a source giving evidence to a creator and thus creation.
- Complexity of DNA and a single cell - biology give evidence of a young universe.
- History/archeology show Bible true thus creation!

Will go into details much more the next 4 weeks.

For now, everywhere we look in nature we see evidence for creation, as Romans 1:21 tells us we will.

History in the Bible matches non-Bible historical sources.

Archeology- finding ruins and ancient writings also confirm what Bible says about places and people is true.

NOTHING gives evidence creation is false.

Everything supporting evolution is questionable based on the assumptions and known flaws in many of those assumptions.

Creation or Evolution? What does Science say?

- Real example: Universe is very old as we see light from distance galaxies. Light travels at a fixed speed so we can calculate how long it takes to arrive and the minimum age of the universe.
- Assumption: light speed was always the same.
- Assumption: the galaxies were always that far away.
- Other evidence: The BIBLE!
 - 14 times it says God stretched out the heavens.
- Other evidence: recent science
 - space itself is expanding.
- One Biblical conclusion - universe not always so big!
 - light did not have to travel so far, so not so old.

Time for light to travel to earth from the sun is just over 8 minutes.

It takes light billions of years to travel from the far reaches of space to earth, thus the universe must be that old.

Isaiah 40:22 - [It is] he that sitteth upon the circle of the earth, and the inhabitants thereof [are] as grasshoppers; that stretcheth out the heavens as a curtain, and spreadeth them out as a tent to dwell in.

Ezekiel 1:22, Isaiah 42:5, 44:24, 45:12, 48:13, 51:13, Jeremiah 10:12, 51:15, Job 9:8, 26:7, 37:18, Psalms 18:9, 104:2, 144:5, 2 Samuel 22:10, Zechariah 12:1.

Expanding universe - like a balloon. Draw dots to represent stars, galaxies.

Blow air in and the surface stretches in all directions. Stars and galaxies get farther apart without even moving

But stars and galaxies do move as well.

Finally - today we can only see as far as the best telescopes. In the past we thought the universe smaller.

Maybe soon we will see farther and realize the universe is much larger, in which case scientist will say is much older.

What if we do not believe creation?

Delete the following books which refer to creation:

Genesis, Exodus, Job, Psalms, Matthew, Mark, Luke, John, Romans, 1 Corinthians, Colossians, Hebrews, 1 Peter, Revelations

Delete other material written by these authors:

Leviticus, Numbers, Deuteronomy (Moses); Acts (Luke); 1,2,3 John, 2 Corinthians, Galatians, Ephesians, Philippians, Colossians, 1,2 Thessalonians, 1,2 Timothy, Titus, Philemon (Paul); 2 Peter (Peter)

Result:

33 books of the Bible removed, leaving 33. Exactly ½.
Do you really believe the Bible in you believe ½ of it?

If we delete books authors wrote on creation, and we do not believe creation, then we must also delete all books written by these authors., as they are unreliable.

Why talk about creation?

- 🌍 Creation and Evolution. Who cares?
- 🌍 Does it really matter what we believe?
- 🌍 This is a minor issue!

Moses wrote about creation and the global flood.

Click
to see that Jesus himself referred to Moses. If Moses was not telling the truth Jesus would not say believe him.

Bible starts with creation, Matthew (NT) starts with genealogy (back to creation). Romans 1, John 1, talk about the beginning. Very important!
Click

3 questions people have asked since time began. Genesis deals with all 3, especially the first 2.
Creation is important many reasons. I will talk briefly about 2 reasons. 1) it affects our day to day lives and 2) it affects our eternal lives.
First, our day to day lives. Next slide.

Why talk about creation?

- Creation and Evolution. Who cares?
- Does it really matter what we believe?
- This is a minor issue!

John 5:46 - “For if you believed Moses you would believe Me, for he wrote about Me.”

3 questions through history:

1. Where did we come from?
2. What is the meaning of life?
3. What happens when I die?

Moses wrote about creation and the global flood.

Click
to see that Jesus himself referred to Moses. If Moses was not telling the truth Jesus would not say believe him.

Bible starts with creation, Matthew (NT) starts with genealogy (back to creation). Romans 1, John 1, talk about the beginning. Very important!

Click
3 questions people have asked since time began. Genesis deals with all 3, especially the first 2.

Creation is important many reasons. I will talk briefly about 2 reasons. 1) it affects our day to day lives and 2) it affects our eternal lives.
First, our day to day lives. Next slide.

Without believing the Bible there are many ideas that are accepted, especially in the western world. They are all founded on evolution - where man decides what is right and wrong.
Psalm 11:3 - "If the foundations are destroyed, What can the righteous do?"
Evolutionary teaching is destroying the Bible foundation in the Western world. How about in India?

We must stand fast and fight back.

Fight against individual issues

Fight to restore the Biblical foundation of truth, where 'God's Word is truth'.

Show evolution is a lie.

Isaiah 58:12 - "Those from among you will rebuild the ancient ruins; You will raise up the age-old foundations;

And you will be called the repairer of the breach, The restorer of the streets in which to dwell."

Creation affects our daily lives

-  Whether what we believe is true and false.
-  The way we treat other people.
-  The decisions we make about many issues.
-  The activities we engage in and avoid.
-  The stand we take; will we compromise.
-  How we share God's truth with others.

Creation affects our eternal lives

- 🌍 Genesis 1 - creation.
- 🌍 Genesis 2 - details about created man/women.
- 🌍 Genesis 3 - how sin entered the world, and it's impact on us.
- 🌍 Genesis 3 - hint of God's plan to free us from sin.
- 🌍 Genesis 6 - evil of man, God will destroy us (flood)
- 🌍 2 Peter 3 refers to evil and the flood, and how fire will destroy the evil world one day soon.

Sin consequences - pain for child bearing, woman seek to take man's role.

- man toil in the earth - work is hard. Treat women improperly. Death has come.

Woman's offspring (Jesus) will crush serpents head - destroy satan and sin.

We understand through the Bible why the world is as it is.

God wants to destroy the world in a flood. It is a real flood. He does it, but saves Noah and his family.

It all fits together, give the background, the foundation for why the world is as it is.

We can understand right from wrong. Evolution has no concept of right and wrong.

What Next?

- Genesis 6:1-7: world evil. God gave people 120 years.
- The ark door closed, it was too late.
- Almost everyone left behind, lost.
- The door is open today. One day it will close again.
- Are you ready to believe?
- Have you accepted Jesus?

People had 120 years to repent of their sin before God's judgment. God is patient, not wanting any to perish.
People saw Noah building the ark. They were probably curious and I expect Noah would tell them what was coming.
No one listened except Noah's family. The door closed, left everyone behind. Everyone perished who was not on the ark.
The door is again open. Rev 3:10 - behold I stand at the door and knock. He who opens the door and lets me in, I will eat with him and he with me.
Jesus is returning soon. The door will again close. Those who have not accepted Jesus, will be lost, forever. They will not go to heaven.
Are you ready? Do you believe the Bible? Have you accepted Jesus as your saviour?
Jesus paid for each of our sins. If we accept him, ask Jesus to forgive us our sins he will and we can enter through the door to heaven. Eternal life.
For many in the west evolutionary teaching makes it very hard to people to believe the Bible, a book which talks about creation, not evolution.
Today you have heard the truth. Evolution is a lie. Do not give in to satan's lies, turn to Jesus for the truth.

Question for next week?

Did dinosaurs live and die before mankind was created?

ie. - did dinosaurs and mankind live together?

-  Give an answer
-  Give reasons for your answer
-  Use the Bible, one or more passages to support your answer.
